This copy may be copied for maintenance of Richter play equipment.

Instructions for wear checks of play equipment

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Playground.....

Date of installation .....

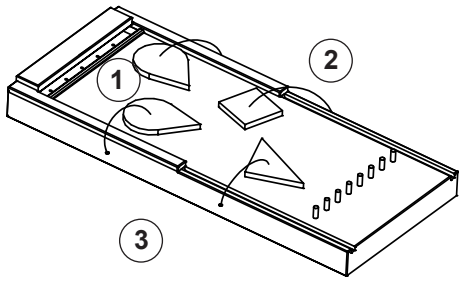
Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

Intervals for maintenance work and checks generally depend on

- the location
- the usage
- the frequency of use
- possible vandalism

For more details see also "General instructions for maintenance of playgrounds".

Leonardo Table
Order No. 10.16100



Flow resistances

1. Check that the resistances are firmly connected and check for damage; if necessary replace resistances. ☐
2. Check the metal parts for stability. ☐

Structural stability

3. Check the structural stability once a year by rocking the equipment. ☐

Special notes, e.g. for repairs
