

# Instructions for wear checks of play equipment

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

**Playground** .....

**Date of installation** .....

Checks depend on the kind of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

Intervals for maintenance work and checks generally depend on:

- location
- kind of use
- frequency of use
- possible vandalism

For more details see also „General instructions for maintenance of playgrounds“.

**Pattern Board**  
**Order No. 10.15005**

The board must be moved vigorously at regular intervals. Otherwise deposits from the liquid may result in permanent clouding of the pane.

## Bearings

1. Check for firmness, tighten if required.

## Filling

2. Move the pattern board thoroughly at regular intervals in order to dissolve deposits in the filling.

## Cleaning of the surface

3. Clean the steel surfaces with a special stainless steel cleaning agent.
4. Clean the perspex with a mild detergent or a special plastic cleaning agent with anti-static effect. Never use spirit or turpentine for cleaning.

## Structural stability

5. Check the attachment to the ground once a year for firmness.

Special notes (e. g. for repairs):

Repair not carried out, it is still possible to play on equipment

Repair not carried out, equipment is taken out of action

All work carried out, everything is in order

Maintenance carried out by

..... Date .....
