

A useful supplement to the play stations.

The Explanation Boards show information on the significance of the equipment which extends beyond the merely play-related enjoyment of the equipment. They contribute to a deeper understanding of the phenomenon.

Please ask us about other Explanation Boards in our range which are not illustrated here.

## The Tuning Stone

### Make a stone sing

The pillar consists of a polished block of granite, scored with deep grooves.

These grooves make it possible to make the stone sing by simply rubbing it with your hand. This causes the block to vibrate like a large tuning fork made of stone.

If there is a water source available, it can be used to wet the stone by rubbing it evenly over the surface with your hands. The best effect is achieved with hands that are free of oil.

Rubbing on the stone causes a vibration that creates a sound. A similar phenomenon is known from glasses, which can be made to create a sound by wetting the rim with water and rubbing it with the finger.

The sound of the stone is full and deep and the mass of the stone causes the special effect to continue for a while.

#### Components

##### Order No. 10.97400

1 Explanation Board  
 with text

##### Order No. 10.99100

1 Support for dowelling  
 and 4 heavy duty anchors

#### Trademark

30 2005 500 000 Germany  
 40-0682207 South Korea

#### Installation information

Recommended space  
 1.00 x 0.75 m

Foundations  
 1 piece 40 x 40 x 40 cm  
 Excavation depth 60 cm

#### Attention:

**Exact measurements may vary;  
 for all installation dimensions refer  
 to current assembly instructions.**  
 Technical changes reserved.

#### Technical information

Explanation Board made of stainless steel

#### Ground anchor

All parts used for anchoring to the  
 ground are made of hot-dip galvanised  
 steel or stainless steel

**For more detailed explanation of the  
 quality characteristics see price list.**
