

### Play value

The Curved Track improves manual agility. The up and down movement of pushing a paired handle along a specially designed track serves to simultaneously exercise the arms, shoulders and wrists. As well, every figure which is made by moving the handle is recognisable and is, likewise, integratable into the therapy.

### Recommended for

- Young people
- Adults
- Older people
- Supervised play areas such as schools, after-school programmes or similar
- Public play areas without supervision such as playgrounds, parks or similar

Curve Track

## Technical information

Equipment made of non-impregnated mountain larch

### Core-free

Sawn-timbers core-free, thus decreasing occurrences of cracking and undesired changes in shape

### Adjustable

Adjustable two-piece bolt connection, easy to maintain, no projecting threads

### HPL ground anchor

Foundation anchor made of phenol resin paper-based laminates

**For more detailed explanation of the quality characteristics see price list.**

Sandwich construction frame, oiled, non-positive fitting

Curve track made of stainless steel (thickness 10 mm)

Handle bar and balls made of polyamide

### Dimensions

(small deviations possible)

Height	2.05 m
Width	0.50 m
Depth	0.20 m
Depth incl. handles	0.30 m
Weight	160 kg

### Safety

This equipment is not playground equipment within the scope of DIN EN 1176 and therefore is also not subject to the requirements of this standard. Nevertheless, it is complied with where appropriate.

## Components

- Curve track with 4 foundation anchors

## Installation information

Surfacing requirements  
no requirements

Foundations  
1 item 60 x 90 x 40 cm  
Excavation 60 cm

**Attention:**  
**Exact measurements may vary;**  
**for all installation dimensions refer**  
**to current assembly instructions.**
