

Proof of maintenance

This diagram illustrates the assembly of a vertical sign. The components are numbered as follows:

- 1:** The main vertical sign panel, featuring a stylized graphic of a cat and the word "KITTEN" in a decorative font.
- 2:** A horizontal support bar that connects the sign panel to the mounting structure.
- 3:** A vertical mounting post or bracket that secures the sign to the wall.
- 4:** A horizontal mounting bracket that provides additional support and alignment.
- 5:** The base mounting plate, which is secured to the wall with screws and provides a foundation for the entire assembly.

5. In order to check for rot at wooden parts, uncover the foundation once a year.

Special notes, e.g. for repairs
