

Instructions for wear checks of play equipment	The equipment must be checked for correct operation and safety, especially the points listed below:	Proof of maintenance			
Playground..... Date of installation Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year. Intervals for maintenance work and checks generally depend on - the location - the usage - the frequency of use - possible vandalism For more details see also "General instructions for maintenance of playgrounds". Leg Press Order No. 11.50100  * point 2 - 6	Wooden parts 1. Check for rot and, if necessary, smooth out splinters and round off sharp edges of cracks. ☐ Resistance system 2. Check that the resistance system moves smoothly all the way to the stop without jerking. ☐ 3. Check the connection between travelling crab and footrest; must be tight. ☐ 4. Ensure that radial damper consistently provides the set resistance. ☐ 5. Check that bolts and screws are tight and retighten if necessary. ☐ 6. Check spring for wear and tear, replace if necessary. ☐ Handles 7. Check that bolts and screws are tight and retighten if necessary. ☐ Structural stability 8. Check the fixation to the ground once a year. ☐	Special notes, e.g. for repairs			
	Repair not carried out, it is still possible to play on equipment ☐				
	Repair not carried out, equipment is taken out of action ☐				
	All work carried out, everything is in order ☐				
Maintenance carried out by: Date
