

Kontrollnachweis

A diagram of a simple microscope. It consists of a long, thick lens (1) mounted in a frame (2) at the top left. A thin lens (3) is mounted on a vertical tube (4) at the bottom right. The tube (4) is inserted into a transparent cube (6) which contains a specimen (5) on a stage. The light path is indicated by a line from the specimen, through the thin lens (3), and then through the thick lens (1) to the eye.

- 1 x im Jahr Fundament aufgraben und auf Fäulnis bzw. bei einem Stahlfuß auf Korrosion prüfen
