

Play value

For small children who still need their parents or a carer close by, the sand pit is an ideal play area. The leaf-shaped back wall, which provides wind and sight protection, has holes in it which invite you to look through. The area in front can be used as a seating or playing area.

Fundamental characteristics

- Child-oriented dimensions
- Appealing design and construction
- Natural wooden surface which appeals to the senses

Recommended for

- Children under 3 years
- Kindergarten children
- Supervised play areas such as kindergartens, schools, after-school programmes or similar
- Public play areas without supervision such as playgrounds, parks or similar

Functional distance —|—

Scale 1:50

Safety check according to DIN EN 1176

Components

- 1 Sand pit with 2 benches and 1 integrated sieve
- 3 Leaves as back rest

Installation information

Surfacing requirements corresponding to a fall height of ≤ 0.60 m (please refer to price list for more detailed information)
Sand is required for correct functioning.

Foundations
not necessary

Attention:
Exact measurements may vary;
for all installation dimensions refer to current assembly instructions.
Technical changes reserved.

Technical information

Equipment made of non-impregnated mountain larch

Core-free

Sawn-timbers core-free, thus decreasing occurrences of cracking and undesired changes in shape

Plywood

Plywood made of mountain larch, three-layer (3 cm) or five-layer (4 cm). High dimensional stability, waterproof, glued according to DIN EN 13353:2011

For more detailed explanation of the quality characteristics see price list.

Sand sieve made of stainless steel, glass bead blasted
