

Play value

The two lovingly designed small fish are an attractive meeting point for small children. The platform can be conquered by different ways and means. Steps, a ramp with or without climbing aids, and a sliding surface all entice the children to play. With a height of 60 cm, the platform is also the perfect place to practice those first jumps. The fish are playthings with the power to charm.

Surfacing requirements corresponding to a fall height of ≤ 0.60 m (please refer to price list for more detailed information)

Foundations
8 items 30 x 30 x 30 cm
Excavation depth 50 cm
2 items 50 x 50 x 40 cm
Excavation depth 60 cm

Attention:

Exact measurements may vary; for all installation dimensions refer to current assembly instructions.

Technical changes reserved.

Technical information

Equipment made of non-impregnated mountain larch

Bevel cut

Vertical stand posts with bevelled end grain section as constructive wood preservation measure

Core-free

Sawn-timbers core-free, thus decreasing occurrences of cracking and undesired changes in shape

Tongue and groove

Tongue and groove planks made of 4 cm solid wood, highly resilient, no trickling of dust / sand, protection against direct rain

Plywood

Plywood made of mountain larch, three-layer (3 cm) or five-layer (4 cm). High dimensional stability, waterproof, glued according to DIN EN 13353:2011

Ground anchor

All parts used for anchoring to the ground are made of hot-dip galvanised steel or stainless steel

For more detailed explanation of the quality characteristics see price list.

Stainless steel slide surface

Colour

Solvent-free acrylic paints are used for colouring; the wood is painted in a way which allows the structure of the wood to remain clearly visible

Dimensions

(small deviations possible)

Height	1.20 m
Length	3.60 m
Width	2.60 m
Weight	390 kg
