

Play value

The enchanting Round Village is composed of various little houses arranged in a circle and connected via walkways. They are the perfect setting to inspire a range of different movement activities and role-play. The play area on the large platform, around which the little houses are positioned, is fun to explore, and a slide or one of the bridge elements can be used to get "out of the village" again. The five slim, high palisades also make this object an attraction that can be seen from afar.

Surfacing requirements corresponding to a fall height of ≤ 0.60 m (please refer to price list for more detailed information)

Foundations

Timber Houses

10 items 50 x 50 x 40 cm
Excavation depth 60 cm

Play floor / Masts

8 item 50 x 50 x 40 cm
Excavation depth 60 cm
5 item 60 x 60 x 60 cm
Excavation depth 80 cm

Attention:

**Exact measurements may vary;
for all installation dimensions refer
to current assembly instructions.**
Technical changes reserved.

Technical information

Equipment made of non-impregnated mountain larch

Peeled white

Palisades peeled white means that bark, cambium and sapwood are removed, the natural shape of the trunk is preserved and can be experienced

Bevel cut

Vertical stand posts with bevelled end grain section as constructive wood preservation measure

Core-free

Sawn-timbers core-free, thus decreasing occurrences of cracking and undesired changes in shape

Claddings

Claddings made of mountain larch (4 – 5 cm). Peeled white by hand, natural tree surface remains tangible and perceptible

Tongue and groove

Tongue and groove planks made of 4 cm solid wood, highly resilient, no trickling of dust / sand, protection against direct rain

Ground anchor

All parts used for anchoring to the ground are made of hot-dip galvanised steel or stainless steel

For more detailed explanation of the quality characteristics see price list.
