

Order No. 4.24173 Baby Elephant

Order No. 4.24175 Lion

### Play value

Our three artistically designed animal babies, Lion, Elephant and Rhinoceros, create a friendly atmosphere and are instantly accepted by children. Without needing any encouragement at all, they play riding games, pat their faces and pull on their tails.

Play sculptures such as these are particularly well suited to accentuate children's worlds and strengthen the identity of a space. These installations create a welcoming atmosphere for entrance areas to kindergartens, children's hospitals and similar institutions.

### Fundamental characteristics

- Very special appeal
- Eye-catcher of a play area
- Attractive meeting point
- Incentive for playing: curiosity, role-playing games, experiencing closeness
- Movement: climbing up

### Recommended for

- Kindergarten children
- Supervised play areas, such as kindergartens, schools, after-school programmes or similar
- Public play areas without supervision, such as playgrounds, parks or similar
