

Instructions for wear checks of play equipment

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Playground

Date of installation

Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

Intervals for maintenance work and checks generally depend on

- location
- kind of use
- frequency of use
- possible vandalism

For more details see also "General instructions for maintenance of playgrounds".

Rocking Horse
Order No. 4.24225

Wooden parts

1. Check for rot and, if necessary, smooth out splinters and round off sharp edges of cracks.
2. Check that all bolts and screws are tight and retighten if necessary.

Rocking mechanism

3. Check for smooth operation, check the action of the rubber buffers in the interior of the snail. If the snail's body does not stop smoothly, replace the rubber buffers. To do this, dismantle the layers of the snail body one after another on the marked side.

Structural stability

4. Examine by rocking the equipment once a year.
