

Play value

The friendly look of the animal families gives a special atmosphere to a play area. This large play equipment allows for fun with movement, role play and understanding of the quantity units one to five, and is therefore a useful addition for small children's areas.

Fundamental characteristics

- Child proportions according to ergonomic requirements
- Unique design
- Use of wood for visual perception
- Incentive for playing: mother-child-situation, small-big, coloured holding grips and connecting ropes
- Movement: moving one's centre of gravity, sitting, crawling, pushing, rotating movement of mouse mother

Recommended for

- Children under 3 years
- Supervised play areas, such as kindergartens, schools, after-school programmes or similar

Special version, mice without colour

Dancing Mice

4.24250

Safety check according to DIN EN 1176

Components

- 1 Big mother with turning mechanism
- 3 Little mice, threaded on Richter Hercules type rope
- 1 Pre-fabricated foundation made of reinforced concrete C35/45
- 1 Foundation timber

Installation information

Surfacing requirements as for critical fall height ≤ 0.60 m (please refer to price list for more detailed information)

Foundations
1 Pre-fabricated foundation (delivered with equipment)
Excavation 40 x 90 x 20 cm
1 Foundation timbers for digging in
Excavation 10 x 60 x 40 cm

Recommendation

When installed in loose ground, the pre-fabricated concrete foundation should be covered durably, e.g. with safety tiles.

Attention:
Exact measurements may vary;
for all installation dimensions refer to current assembly instructions.
Technical changes reserved.

Technical information

Equipment made of non-impregnated mountain larch

Core-free

Sawn-timbers core-free, thus decreasing occurrences of cracking and undesired changes in shape

Laminated wood beams

Laminated wood beams made of non-impregnated larch, glued according to EN 14080:2013; for very large timber cross-sections; comparatively low shrinkage, almost completely free of cracks

Plywood

Plywood made of mountain larch, three-layer (3 cm) or five-layer (4 cm). High dimensional stability, waterproof, glued according to DIN EN 13353:2011

Richter Hercules type rope

Richter Hercules type rope, a combination of galvanised six-strand steel cables and polyester yarn, diameter > 20 mm, laid and glued with very good abrasion resistance, strong sheathing even in the case of damage by puncturing

Relief cut

Targeted relief cut as an effective measure against cracks caused by drying. The cut defines the position of the stress equalization in the trunk and minimises natural cracking

For more detailed explanation of the quality characteristics see price list.

Turning mechanism and fixings hot-dip galvanised

Foundation timbers of oak wood

Standard colour rope: rainbow

Colour

Colouring with solvent-free acrylic paints; the wood is processed in a way that allows the structure of the wood to remain clearly visible

Dimensions

(small deviations possible)

Mother	
Length	0.60 m
Width	0.30 m
Sitting height	0.35 m
Small mice	
Length	0.40 m
Width	0.17 m
Sitting height	0.17 m
Length total	4.35 m
Weight total	130 kg
