Instructions for wear checks of play equipment

Playground

Date of installation

Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

Intervals for maintenance work and checks generally depend on

- location
- kind of use
- frequency of use
- possible vandalism

For more details see also "General instructions for maintenance of playgrounds".

Sand Play Element from Small Building Site Order No. 5.09320

The equipment must be checked for
correct operation and safety, especially
the points listed below:

Wooden parts

- 1. Check for rot and, if necessary, smooth out splinters and round off sharp edges of cracks.
- 2. Check that all bolts and screws are tight and retighten if necessary.
- 3. Recommendation: apply paraffin wax to the upper end grain areas once a year, please refer to Order No. 0.90100, 1 litre.

Operation

4. Check all functional parts and retighten screws and bolts, if necessary.

Bearings and chains

5. Make sure that bearings and chains move smoothly and check for wear and tear.

Sand sieves

6. Check for wear and tear.

Structural stability

7. In order to check the steel feet for corrosion, uncover the foundation once a year.

Repair not carried out, it is still possible to play on equipment

Repair not carried out, equipment is taken out of action

All work carried out, everything is in order

Maintenance carried out by:

Special notes, e.g. for repairs
