

# Instructions for wear checks of play equipment

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Playground .....

Date of installation .....

Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

Intervals for maintenance work and checks generally depend on

- location
- kind of use
- frequency of use
- possible vandalism

For more details see also "General instructions for maintenance of playgrounds".

**Small Bucket Wheel**  
**Order No. 5.15900**  
 for connection to concrete base

## Bucket wheel

1. Check that the axel is stable; if necessary tighten locking bolts with a 13 mm spanner.

## Axle

2. Check that the axle moves freely in the bearing blocks (4 maintenance-free bearings) .

## Suspension

3. Check that cotter pins are present.

## Connection

4. Check that the pedestal pipe is stable.

Special notes, e.g. for repairs

Repair not carried out, it is still possible to play on equipment

Repair not carried out, equipment is taken out of action

All work carried out, everything is in order

Maintenance carried out by:

..... Date .....
