

Play value

This simple looking equipment is of high play value, and also a lot of fun. The unusual way of making water splash is a delightful surprise, particularly when one doesn't get wet oneself. Depending on the weight and skill of the participant, fountain jets reaching a distance of up to 7 m and a height of up to 4 m can be achieved by means of jumping up and down on the discs. It is great fun when several Splash Hoppers are installed near to each other so that a real spray competition can take place.

Fundamental characteristics

- Mechanical pump mechanism makes the correlation between one's own power and the width of the Splash Hopper visible
- Functional design
- Incentive for playing: curiosity
- Movement: jumping

Recommended for

- School children
- Young people
- Swimming pools without supervision, such as outdoor pools, adventure pools or similar
- Water play areas without supervision
