Instructions for wear checks of play equipment

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Playground

Date of installation

Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

Intervals for maintenance work and checks generally depend on

- location
- kind of use
- frequency of use
- possible vandalism

For more details see also "General instructions for maintenance of playgrounds".

AQuadrat© Order No. 5.51000 -5.53400

with angled channel and shutter.

Wooden parts

- 1. Check for rot (regular cleaning prevents excessive rotting) and, if necessary, smooth splinters.
- 2. Check that all bolts and screws are tight and retighten if necessary.
- Repair excessive warping or swelling by sanding wood back.

Structural stability

In order to check the stability of the foundation or the steel feet for corrosion, uncover the foundation once a year.

Please pay particular attention to the mainentance notes of the following combination equipment:

5.15820 Metal Mill Wheel 5.18000 Mushroom Spring Playground Pump 5.17500 5.20000ff. **Archimedes Screw** 5.20850 **Rotating Conveyor** with Tipper Trays

Special notes, e.g. for repairs
