

### Play value

The Bouncing Flower is a movement possibility which is great fun, especially when used by several participants. It is easy to enjoy whether jumping and hopping in the same rhythm or even against the rhythm of one's neighbour. The mobile "petals" on the jumping flower are fixed by means of hinges to the centre. Each "petal" can bounce up and down thanks to springs.

### Fundamental characteristics

- Unique and original
- Agreeable design
- Wooden surface with natural structure for a good grip
- Incentive for playing: "petals", springs
- Movement: jumping up and down, jumping off, hopping

### Recommended for

- Kindergarten children
- School children
- Public play areas without supervision, such as playgrounds, parks or similar
