

Play value

The Whirligig is very attractive to small children, due to its friendly appearance and child-sized dimensions. Only a small amount of force is enough to start the Whirligig turning around, with or without a guest. If a passenger is on the foot support ring, they can influence the turning speed by shifting their centre of gravity. Children can hold on to the arms or collar easily and turn around together with the Whirligig. This carousel provides the opportunity of exploring the laws of centrifugal force in a playful manner.

Fundamental characteristics

- Child-sized and emotionally appealing design
- Sensitive use of colour
- Play value can be experienced individually
- Can be put into motion with one push of the leg
- Pirouette effect can be experienced
- Incentive for playing: face, colour, arms
- Movement: running around, spinning

Order No. 6.28100 Whirligig with Arms, light blue / blue

Special version

Order No. 6.28100 Whirligig with Arms, red / orange

Order No. 6.28104 Whirligig with Collar, red / orange, Photo © Daniel Perales

Whirligig with Collar Whirligig with Arms

6.28000 - 6.28006

6.28100 - 6.28106

Safety check according to DIN EN 1176

Components

- 1 Whirligig
1 Pre-fabricated foundation made of reinforced concrete C35/45

Installation information

Surfacing requirements
corresponding to a fall height of ≤ 0.60 m
(please refer to price list for more
detailed information)

Foundations
Excavation for pre-fabricated foundation
approx. Ø 1.00 x 0.35 m
For installation in loose material,
e.g. sand, an additional anchorage in
concrete is necessary on-site.

Recommendation

When installed in loose ground, the pre-fabricated concrete foundation should be covered durably, e.g. with safety tiles.

Attention:

Exact measurements may vary, for all installation dimensions refer to current installation instructions. Technical changes reserved.

Technical information

Turning body lathe-turned from one piece of non-impregnated mountain larch

Peeled white

Palisades peeled white means that bark, cambium and sapwood are removed, the natural shape of the trunk is preserved and can be experienced

For more detailed explanation of the quality characteristics see price list.

The wood is split in order to dry and screwed back together around a rubber layer, thereby preventing the solid timber from cracking.

All visible metal parts made of stainless steel, glass bead blasted

With double polyamide bearings

Colour

Solvent-free acrylic paints are used for colouring; the wood is painted in a way which allows the structure of the wood to remain clearly visible

Standard colours:

Order No. 6.28000 / 6.28100

light blue, blue

Order No. 6.28004 / 6.28104

red, orange

Order No. 6.28006 / 6.28106

purple, pink
