

Play value

Our Medium Wheelchair Carousel can accommodate either two children in wheelchairs or one adult in a wheelchair. A generously sized seat also provides comfortable space for one or more additional passengers. The tubular supports invite users to lean back and relax while also offering stability. Communication and cooperation enhance the shared experience of pushing the carousel to set it in motion. This piece of active play equipment can also serve as an appealing yet unobtrusive meeting point for teenagers.

Fundamental characteristics

- Agreeable design
- Unobtrusive appearance
- Supports integration
- Incentive for playing: bars, big round surface
- Movement: pushing, turning
