| Instructions for wear checks of play equipment  | The equipment must be checked for correct operation and safety, especially the points listed below:  | Proof of maintenance            |
|---|--|---------------------------------|
| Playground  Date of installation  Checks depend on the type of equipment.  Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.  Intervals for maintenance work and checks generally depend on | Wooden parts     Check for rot and, if necessary, smooth out splinters and round off sharp edges of cracks.     Check that all bolts/screws and all wood connections are tight and retighten if necessary.     Recommendation: apply paraffin wax to the upper end grain areas once a year, please |                                 |
| <ul> <li>location</li> <li>kind of use</li> <li>frequency of use</li> <li>possible vandalism</li> </ul> For more details see also "General instructions for maintenance of playgrounds".  | refer to Order No. 0.90100, 1 litre.  Ropes, chains and rope nets  4. Check for wear and tear, if worn heavily, it is imperative they be replaced.  5. Check connections and swages.  Structural stability   |                                 |
| Climbing Structure 08<br>Order No. 6.51008/L6.51008   | 6. In order to check for rot at wooden parts or steel feet for corrosion, uncover the foundations once a year.   | Special notes, e.g. for repairs |
|   | Repair not carried out, it is still possible to play on equipment  |                                 |
|   | Repair not carried out, equipment is taken out of action   |                                 |
|   | All work carried out, everything is in order   |                                 |
|   | Maintenance carried out by:  |                                 |
