

Instructions for wear checks of play equipment

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Playground.....

Date of installation

Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

Intervals for maintenance work and checks generally depend on

- the location
- the usage
- the frequency of use
- possible vandalism

For more details see also "General instructions for maintenance of playgrounds".

Big See-Saw Platform
Order No. 6.70000

Take care that there are no gaps between the bottom edge of the equipment and the ground, which could allow fingers etc. to become entrapped.

Wooden parts

1. Check for rot and, if necessary, smooth out splinters and round off sharp edges of cracks.
2. Check that all bolts and screws are tight and retighten if necessary.

Operation

3. Check that the spring strut is securely connected.
4. Check rubber lips underneath both starting ramps for wear and tear, replace if necessary.

Structural stability

5. Check that floor support is securely connected.
6. Check that the equipment is anchored securely to the foundations.

Special notes, e.g. for repairs

Repair not carried out, it is still possible to play on equipment

Repair not carried out, equipment is taken out of action

All work carried out, everything is in order

Maintenance carried out by:

..... Date
