

### Play value

The chimney slide is a piece of equipment for particularly skilful and daring children. The platform can only be reached via the chimney or the two climbing poles and is thus primarily suitable for older children and young people. This makes the platform a popular meeting place for retreating, enjoying the view and chatting in peace. For younger and older children alike it is lots of fun to swiftly get away on the long wave slide.

Safety check according to DIN EN 1176

**Components**

- 1 Chimney with internal access
- 1 Platform with handrails
- 1 Bundle: 4 firemen's poles
- 1 Stainless steel slide,  
**Order No 3.63225**

**Installation information**

Surfacing requirements  
corresponding to a fall height of  $\leq 3.00$  m  
(please refer to price list for more  
detailed information)

**Foundations**

**Chimney and firemen's poles**

4 items 50 x 115 x 60 cm

Excavation depth 80 cm

**Slide**

1 item 70 x 30 x 30 cm

Excavation depth 70 cm

**Attention:**

**Exact measurements may vary;  
for all installation dimensions refer  
to current assembly instructions.**

Technical changes reserved.

**Technical information**

Equipment made of non-impregnated  
mountain larch

**Core-free**

Sawn-timbers core-free, thus decreasing  
occurrences of cracking and undesired  
changes in shape

**Tongue and groove**

Tongue and groove planks made of  
4 cm solid wood, highly resilient, no  
trickling of dust / sand, protection  
against direct rain

**Hardwood rungs**

Climbing rungs made of hardwood (ash)  
 $\varnothing$  4.2 cm, milled and mortised, secured  
against twisting, easy to grip and not  
cold for children to touch
