

Play value

The gentle design of the Play Wave encourages exploration. Even small children can pull themselves up, crawl on it and gain their first climbing experience. Older children can use the wooden footholds on the side to get to the top. The wave is also a popular place to sit on, watch and hang out.

Fundamental characteristics

- Child-oriented dimensions according to ergonomic knowledge
- Natural wooden surface that appeals to the senses
- Movement: climbing, crawling, balancing

Recommended for

- Kindergarten children
- School children
- Supervised play areas, such as kindergartens, schools, after-school programmes or similar
- Public play areas without supervision, such as playgrounds, parks or similar

Play Wave

7.83100

Safety check according to DIN EN 1176

Components

1 Play Wave

Pre-fabricated foundation made of reinforced concrete C35/45 available, see **Order No. 4.24160** in the price list. 2 pieces are required.

7.83100

Installation information

Surfacing requirements
as for critical fall height ≤ 1.00 m
(please refer to price list for more detailed information)

Foundations
2 items 30 x 100 x 40 cm
Excavation 60 cm

Note

Loose fall protection material is not suitable for installation with pre-fabricated foundation.

Attention:

**Exact measurements may vary;
for all installation dimensions refer
to current assembly instructions.**

Technical changes reserved.

Technical information

Equipment made of non-impregnated mountain larch

Core-free

Sawn-timbers core-free, thus decreasing occurrences of cracking and undesired changes in shape

Ground anchor

All parts used for anchoring to the ground are made of hot-dip galvanised steel or stainless steel

For more detailed explanation of the quality characteristics see price list.

Dimensions

(small deviations possible)

Length	2.10 m
Width	1.00 m
Height	0.85 m
Sitting height	0.30 m
Weight	300 kg
