

### Play value

Climbing up, crawling in or crawling through – the Play Barrel offers children from the age of three numerous opportunities to test their agility or hide in the tube and let their imagination run wild in role-playing games. The barrel invites younger and older children to retreat or take a short breather before they go back to playing. Getting to the top via the wooden footholds on the outside requires balance and dexterity.

### Fundamental characteristics

- Child-oriented dimensions according to ergonomic knowledge
- Natural wooden surface that appeals to the senses
- Movement: climbing, crawling, balancing

### Recommended for

- Kindergarten children
- School children
- Supervised play areas, such as kindergartens, schools, after-school programmes or similar
- Public play areas without supervision, such as playgrounds, parks or similar

### Play Barrel
