

Order No. 8.11050 Marble Vending Machine

Play value

Our Sandstone Marble Run offers a fun way to spend time. It is made of solid sandstone blocks with a natural surface that has an interesting touch and feel. Each marble run is unique, the corners and edges of the runs have been rounded off in a child-friendly way, and the sandstones can also serve as seats. Because we make sure that the marble runs can be played with at all levels, this piece of playground equipment promotes inclusive play.

To make it easier to start playing, our Sandstone Marble Runs, when located in a public area, always have a Marble Vending Machine nearby. Here you can easily get a marble to play with by inserting a 50 cent or one euro coin. Of course, users can keep their marble and use it with all other Sandstone Marble Runs. In supervised areas, such as nurseries, children have free access to marbles.

Fundamental characteristics

- Appealing design and construction
- Child-oriented dimensions
- Natural surface for tactile sensory experience
- Incentive for playing: play together, communicate
- Movement: climbing, sitting

+41 41 675 03 67 — info@ludocrea.ch

Technical information

Order No. 8.11000 / 8.11100 / 8.11200

Sandstone Marble Run Samuba®

Equipment made of sandstone from the Elbe Sandstone Mountains, Saxony, Germany

Yellow to greyish-white in colour, some parts show a very vivid texture, very fine-grained

Sandstone is a natural rock, untreated and free of pollutants

Each marble run is unique and is made on demand.
The individual marble runs fall into place during the work

Modular construction is also possible, i.e., the different sizes can be extended individually.

As for the marbles we recommend a $\varnothing \geq 32$ mm, as a smaller diameter is not suitable for children under 36 months due to the risk of swallowing.

Order No. 8.11050
Marble Vending Machine

Equipment made of non-impregnated mountain larch

LudoCrea.ch GmbH — 6074 Giswil — +41 41 675 03 67 — info@ludocrea.ch

Installation information

Surfacing requirements: firm and level corresponding to a fall height of ≤ 1.00 m (please refer to price list for more detailed information)

Foundations

Order No. 8.11000 / 8.11100 / 8.11200

Sandstone Marble Run Samuba®

Foundations are usually not required for sandstone marble runs because of their high dead weight. Due the high dead weight, the site must be accessible with a lifting equipment.

Order No. 8.11050

Marble Vending Machine

1 item 50 x 30 x 30 cm

Excavation depth 50 cm

Attention:

Exact measurements may vary; for all installation dimensions refer to current assembly instructions.
Technical changes reserved.

Core-free

Sawn-timbers core-free, thus decreasing occurrences of cracking and undesired changes in shape

Tongue and groove

Tongue and groove planks made of 4 cm solid wood, highly resilient, no trickling of dust / sand, protection against direct rain

Ground anchor

All parts used for anchoring to the ground are made of hot-dip galvanised steel or stainless steel

For more detailed explanation of the quality characteristics see price list.

Posts made of hot-dip galvanised steel
