Instructions for wear checks of play equipment	op	The equipment must be checked for correct operation and safety, especially the points listed below:		Proof of maintenance	
Playground		Concrete			
Checks depend on the kind of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.	1.	Check the concrete for damage due to vandalism (chipped edges). Blunt sharp edges of the concrete with an angle grinder and/or repair with fast setting cement or epoxy resin.			
·		Structural stability			
Intervals for maintenance work and checks generally depend on: - location - kind of use - frequency of use - possible vandalism For more details see also "General instructions for maintenance of playgrounds". Phones made of concrete Order No. 9.02710	2.	Check fixation to the ground once a year by lifting.		Special notes (e. g. for repairs):
