

Instructions for wear checks of play equipment	The equipment must be checked for correct operation and safety, especially the points listed below:	Proof of maintenance	
Playground Date of installation Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year. Intervals for maintenance work and checks generally depend on - location - kind of use - frequency of use - possible vandalism For more details see also "General instructions for maintenance of playgrounds". Marbles Table Order No. 9.15400  Detail anti-rotation device 	Structural stability - Uncover the foundation once a year in order to check that the equipment is properly anchored to the ground. ☐ Wooden parts - Check for rot and, if necessary, smooth out splinters and round off sharp edges and cracks. ☐ - Check all bolts and screws are tight and retighten if necessary. ☐ - Recommendation: apply wood preservative wax (www.complex-farben.eu) once a year. ☐ Stainless steel - Clean with stainless steel spray (www.kim-tec.de) using a clean cloth. ☐ Glass - Clean with glass cleaner using a clean cloth if necessary. ☐ - Check the seal between the glass and frame for leakages. ☐ Details - Check the anti-rotation device under the table for correct seating and function. ☐	Special notes, e.g. for repairs	
	Repair not carried out, it is still possible to play on equipment	☐	
	Repair not carried out, equipment is taken out of action	☐	
	All work carried out, everything is in order	☐	
	Maintenance carried out by: Date
