

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Wooden parts

1. Check for rot and, if necessary, smooth out splinters and round off sharp edges of cracks.
2. **Recommendation:** apply paraffin wax to the upper end grain areas once a year, please refer to Order No. 0.90100. 1 litre.

Climbing Net

3. Check that connection points are tight and retighten if necessary (see detailed diagram dimension B).
4. Check for wear and tear. Replace if steel reinforcement is damaged.

- ## Firemen's Pole

5. Check that bolts and screws are tight and retighten if necessary.

Structural stability

6. In order to check steel feet for corrosion, uncover the foundations once a year.

detailed diagram

For spare parts refer to next page.

Repair not carried out, it is still possible to play on equipment

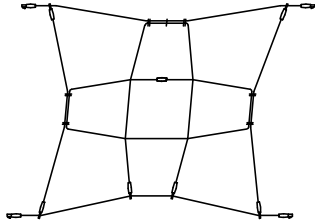

**Repair not carried out,
equipment is taken out of action**

**All work carried out,
everything is in order**

Maintenance carried out by:

..... **Date**

Special notes, e.g. for repairs
